

Thomond Primary School

Newsletter volume 5, June 2019

It's hard to believe the school year is coming to an end. We've had a fantastic year at TPS and we are so proud of all our pupils, parents and staff for the commitment and hard work that is shown each day. Here are a final few snippets for you to enjoy...Have a wonderful summer and see you in August!

All the hard work from Laura and her team have paid off...we raised our brand new Active Schools' Flag this June! It's been a superb couple of months of sport in TPS and this proves what can be done when we put our minds to it!!

From visits from superstars Aoife Daly and Hayleigh Kiely to training sessions with Wayne and Paudie sport was tackled from every angle.

We were also delighted to receive our Discover Primary Science STEM plaque for all the work that's going on in the areas of Science, Technology, Engineering and Maths.

Triona's class wowed us all with their science project on renewable energy whilst representing the school in Mary I.....

... 6th class enjoyed engineering a vision for the disused space in our locality.

Our super Parents' Association is going from strength to strength. They support the school in a variety of activities and are always willing to help. Their fundraising Bake Sale went down a 'treat' for all the pupils and staff.

Niamh Carroll's 4th class blasted off with their LEGO project 'mission to the moon'.

The kids loved putting their building and planning skills to use.

Sarah and Kate were so proud of all the boys and girls in second class who made their First Holy Communion. The ceremony went off beautifully and the practice and hard work put in by all could be clearly seen. Well done to all; the children were a credit to their parents and teachers.

June is a time for trips and tours. The children have been having a ball visiting all sorts of places including our local Shelbourne Park.

Jane's third class loved every minute of their trip to Leahy's farm! Adventure, animals and lots of fun!!

Geoff Hunt was back again, this time to visit with Second class and Junior Infants. The children really love exploring nature and learning how to care for our planet.

Junior and Senior Infants learned all about the stages of the Butterfly, from egg to caterpillar to cocoon and finally to adult butterfly. It was wonderful watching life unfold before our very eyes and watch as these new beautiful creatures flew off into the big wide world.

In preparation for their transition to secondary, the 6th class pupils visited our local post primary school.

It's a very exciting time for them and we wish them all the best in their newest adventure.

Some of the boys and girls got all decked out in Ardnacrusha! They learned all about how the dam works to create electricity for our city. With the climate issues that face us this kind of knowledge empowers us to make good choices for our world.

Seniors celebrate completing their Doodle Den club with a trip to our fabulous local library to hear stories with librarian Ciara.

The choir enjoyed a well deserved bowling trip. They've done amazing work this year and we can't wait to hear more from this wonderful bunch.

School reopens on August 29th @ 8.45am.

Happy Holidays from all the staff and pupils in TPS!
